To Whom it may concern

I previously was the Managing Director of Southern Intelligence Agency Inc. and I have known Mr Michael Olivera for several years and his position there was Sr. Private Investigator. Mr Olivera conducted many high level investigations that pertained to Signal Piracy fraud. I have personally observed his ability conducting investigations and his management skills and in my opinion they were exemplary

I would not hesitate to recommend him for a position of trust as his character and integrity are above reproach. Please contact me personally should you require additional information

Sincerely,

Rocky J Lapomardo
